

**BOARD OF TRUSTEES  
CARSON CITY SCHOOL DISTRICT**

**POLICY No. 213  
PROGRAM**

**FIELD TRIPS AND EXCURSIONS**

School and District personnel will be permitted and encouraged to undertake planned field trips which have educational merit, which complement approved curriculum goals, or advance social development.

The Board of Trustees, within existing financial limitations, will provide funds in the annual budget to assist with field trip costs. Schools are permitted to raise additional funds to support such activities.

In developing field trip procedures, attention must be given to the need for:

- addressing the Nevada Academic Content Standards;
- safety and liability coverage;
- parental permission; and
- the learning needs of students who remain at school.

All field trips must have the approval of the principal. Multiple-day and out-of-state trips require the approval of the Superintendent or designee.
