Sheila Story introduced the health teachers from CMS, EVMS and CHS. Jen Menifie spoke about the Health Class Permission Slip and went over the Learning Targets and Learning Guide for the High School. Angela Maw went over the Health Class Permission slip for CMS and EVMS. She gave us a history on the Learning Targets that are on the back of the permission slip. The committee discussed the differences between the two forms and asked that the CMS and EVMS include on their permission slip the Essential Questions that are on the Student Learning Guide. Angela Maw and Bonnie Preston said they could add the Essential Questions to the permission slip so parents have a better understanding about the materials being presented in class.

Angela Maw, CMS Health Teacher asked that we review a video for her class the next time we meet and Bonnie Preston, EVNS Health Teacher asked us to order a few materials to review for her class.

The committee reviewed the following video **“Nicole’s Choice” by Making Health Choices**. The committee felt the video contained good information but did not match Carson City demographically. They felt the music and setting were outdated and overall was not culturally diverse. The committee voted 4 to 1 in favor of rejecting the video and asked that we find a similar video that is more culturally diverse.

Meeting was adjourned at 8:10 PM.
