- Presentation of the new 2020 State of Nevada Health Standards
 - Erin Been and Bonnie Preston presented the Health standards to the committee. Members asked several clarifying questions regarding the standards and the role of the committee regarding resources for teaching the new standards. Kyndra asked if the standards included treatment of STDs. Bonnie explained that, yes, the standards cover “treatment” but do not label different treatments by name/program. Tasha explained that core curriculum is adopted by the Board but that the committee will review and approve supplemental materials. Kyndra inquired whether or not she can bring possible resources to the team for consideration. Sheila told her that she could suggest materials for consideration by the committee. Stella commented that she thought the changes will be very good for the student body since many students will not ask questions unless the topic is addressed by the teacher. The committee was very positive about the changes to the standards. Ann asked if abortion was being taught as a treatment. Bonnie explained that abortion was being taught from a legal standpoint not as a treatment. Ann asked questions regarding where suicide falls within the standards. Bonnie reviewed that portion of the standards for the team. Erin also shared some of the other new topics added such as human trafficking. Sheila thanked everyone for attending the meeting and wished everyone happy holidays. Erin expressed gratitude to Sheila and Tasha for the hard work they do in the scope of their service to the district.
